02/10/2015 -The **Aura collection** was born from the collaboration between Mario Ferrarini and **Crassevig**. A family of upholstered chairs and armchairs designed for contract and domestic market.

AURA | Stuhl auf fixem Fußgestell

AURA | Freischwinger

With their simple, understated lines, numerous customization options and choice of bases and armrests, Aura chairs and armchairs are ideal for furnishing waiting rooms and halls. The Aura range was designed to meet the specific requirements of the demanding contracting market and it really stands out due to its comfort and clean-cut outline. The chairs and armchairs are available with high or low backrests and there is a choice of wheels or a metal stand for the base with four legs.

Each **Crassevig** product is entirely made in Italy. Prototyping is one of the most delicate phases and takes place in **Crassevig** factory in collaboration between designers, creative and production departments. The result is always a furniture piece of real value, perfectly made in function and aesthetics.

Aura is a wide and flexible collection. It's available with a base on four legs, on wheels or with a fixed aluminum pedestal base, with or without armrest.
