Crassevig

CRASSEVIG

It all started in the 60s

For 40 years we have been offering beautiful furniture and real quality. Today our products are among the finest in the world. Initially specialized in solid wood steam bending, over time we have completely diversified with the aim to play an important part in the world of design. The high standard of Crassevig products is due to the combination of good design, industrial technology, artisan skill and care. The collection comprises mostly of chairs and tables, for domestic and public use.
